- London, UK
- sineaddonnelly.com

## SUMMARY

I have 5 years of extensive video editing experience in a variety of genres. Having experience in front of the camera sets me apart from others as I have an in depth understanding of storytelling. I work efficiently, I communicate well, and I am enthusiastic and driven about the work that I create. I believe this can be seen what I produce and I hope that we get the opportunity to work towards something great, together.
